

Spoštujemo živali!

Na kmetiji imamo 50 koz različnih pasem. Vse živali se prosto gibljejo na prostranih pašnikih, kjer se v neokrnjeni naravi hranijo z rastlinjem, grmovjem, travami. Koze uživajo prek 600 različnih rastlin in vršičkov – veliko več kot vse druge domače živali. Koze izbirajo samo najboljše in zdravilne rastline.

Peštra ponudba

Poleg peštre izbire mlečnih izdelkov imamo v svoji ponudbi tudi:

- pirino moko
- svežo sezonsko zelenjavo
- različne vrste marmelad
- različne vrste sokov
- vloženo zelenjavo
- orehe
- žganje

Na naši kmetiji sprejemamo tudi različne skupine ter vrtce in šole. Poleg ogleda njiv, vrta, mlekarne in sadovnjaka lahko uživate tudi v poskušanju naših domačih dobrot pridelanih in predelanih na ekološki način.

Wide variety

Besides a wide variety of dairy products we also have

- whole wheat flour
- fresh seasonal vegetables
- different types of marmalade
- various kinds of juices
- canned vegetables
- walnuts
- different kinds of brandy

We also have tours of our farm for different groups and schools. We look at our fields, garden, dairy, apple orchard. You can also taste some of our products that are all from organic production.

We respect animals

We keep approximately 50 goats. Our goats are mixed breeds (sanska, srnasta pasme). All animals move free on vast green pastures, where they are intact with nature and eat plants, bushes and grasses. Goats enjoy by 600 different plants herbs and bushes – much more than all other domestic animal. Goats choose only the best plants.

Ekološki pridelki in izdelki

EKOLOŠKA KMETIJA ZUPANIČ IN METZ

www.eko-podezelje.si

Tradicija in gostoljubnost!

Naša ekološka kmetija je v lasti družine Zupanič že več sto let. Kmetija leži v vasi Jelenče, med Pesnico in Šentiljem. Naše posestvo obsega 16 ha, na sredini stoji stara kmetija, ki je pod spomeniškim varstvom v povezavi z 2. svetovno vojno. Kmetijo krasijo tudi več sto let stara akacija, ki stoji pred hišo. Na ekološki način gojimo različne vrste žit (pšenico, piro, koruzo, ječmen, oves) za krmo in za pridelavo moka, ki jo meljemo na mlin na kamen. Trenutno smo se specializirali v kozje mlečne izdelke, ki jih pridelujemo v naši sirarni. Del posestva je tudi star sadovnjak s približno 350 jablanami, ki obrodijo različne vrste jabolk.

Izberite ekološko in lokalno!

Izberite ekološka živila s slovenskih kmetij, saj niso izpostavljena dolгим transportnim putem in tako obdržijo svežino, več vitaminov in mineralov. Ekološka živila so pridelana na povsem naraven način, brez uporabe topnih mineralnih gnojil, kemično sintetiziranih fitofarmaceutskih sredstev (pesticidov), gensko spremenjenih organizmov in različnih regulatorjev rasti. So visoko kakovostna, z bogato prehransko vrednostjo in visoko vsebnostjo vitaminov, mineralov in antioksidantov, dajejo več energije in krepijo imunski sistem.

Sirarna s tradicijo

V okviru kmetije imamo tudi mlekarno, v kateri med marcem in oktobrom pridelujemo mlečne izdelke iz kozjega mleka. V ostalih mesecih pridelujemo mlečne izdelke iz kravjega mleka. Na področju pridelave mlečnih izdelkov se tudi izobražujemo, saj lahko gremo le tako v korak s časom in novo tehnologijo. Vedno znova preizkušamo nove in drugačne kombinacije sirov in se pri tem prilagajamo tudi povpraševanju potrošnikov.

Na naši kmetiji proizvajamo naslednje izdelke iz kozjega ekološkega mleka: skuto, mehki sir, poltrdi sir, navadne jogurte in jogurte z različnimi okusi, maslo, smetano, kisló smetano. Vsi izdelki nosijo certifikat ekološke pridelave in predelave.

Tradition and hospitality!

Our organic farm has been in the Zupanič family for many generations. Our farm is located near Maribor. We are in Jelenče, between Pesnica and Šentilj. We have a combined 16 hectares where the original farmhouse sets in the middle of the property. The farmhouse is also a national landmark from WWII. It is also well known for the several hundred year old Akacija tree that gallantly stands in front of the house. Here we grow different grains for feed for the animals and also for flour that we mill on an original stone mill. We grow wheat, spelt wheat, corn, barley and oats, all grown organically. We currently specialize with goat's milk products which are produced on site in our dairy. We also have an old apple orchard with many favorite types of apples from approximately 350 trees.

Choose organic and local!

Choose ecological foods from the Slovene farms, they aren't exposed to long transport ways and they keep freshness, they are full of vitamins and minerals. Ecological foods are produced in a completely natural manner, without use of soluble mineral fertilizers, chemically synthesized phyto-pharmaceutical products (of pesticides), genetically modified organisms and different regulators of growth. They are high quality products, with rich nutritional value and high content of vitamins, minerals and antioxidants. They give more energy and strengthen the immune system.

Cheese dairy with tradition

We have a small dairy that we specialize in goat's milk products and cheeses. Our goats products are seasonal (March- October) but in the off season we make products from cows milk. All of our milk products include yogurts, curd, soft and hard cheeses. We attend many classes each year so that we are up to date with new technology and are always trying new types of cheeses.

On our farm we produce the following products from goat milk: curd, soft cheese, half hard cheese, yogurts and yogurts with different flavours, butter, cream, sour cream.

All products have organic certificate.
